

Hydraulic Terminal Crimping Tool 6-50mm

This mechanical press-joint clamp is used for terminal press-joint. It has a compression capacity of 6-50mm, length of 395mm, and weight of 1.5 kg.

Product Overview

Professional Hydraulic Crimping Tool

This heavy-duty mechanical hydraulic crimping tool is designed for secure and efficient terminal press-joint applications. Engineered for durability, it features high-strength steel components and a powerful hydraulic mechanism that delivers consistent crimping force with minimal physical effort. Its ergonomic handle design ensures comfort and control, making it an essential tool for professional electrical and industrial environments.

Technical Specifications

Crimping Capacity

6 mm²

Min Capacity

50 mm²

Max Capacity

Tool Length

395 mm

Weight

1.5 kg

Supported Crimp Sizes

6mm², 10mm², 16mm², 25mm², 35mm², 50mm²

Key Features

Tool Attributes

- Mechanical hydraulic mechanism for reduced effort
- High-strength steel construction
- Ergonomic handle design
- Suitable for electrical and industrial use
