

Hydraulic Toe Jack for Heavy Lifting

This hydraulic toe jack is designed for lifting heavy loads in industrial and construction environments. It is ideal for lifting machinery, equipment, and structures where low clearance is required.

Product Overview

Industrial Lifting Solution

This hydraulic toe jack is designed for heavy-duty lifting in industrial and construction environments where low clearance is a challenge. Engineered for reliability, the unit features a robust construction integrated with safety valves and accessible oil circuit maintenance points. Its professional design allows for efficient operation when maneuvering heavy machinery, equipment, or structural components.

Technical Specifications

Available Models	MHC-5, MHC-10, MHC-20, MHC-30, MHC-50, MHC-100
Lifting Height	115 mm
Net Weight	15 kg

Performance

Key Performance Metrics

5 tons

Incremental Capacity

Features

Integrated Features

- Safety Valve
- Oil Circuit Maintenance Hole
- Refill Plug
