

I-Style Aluminum Level

This I-style aluminum level is a precision tool for ensuring surfaces are horizontal or vertical. Constructed from durable aluminum, it features multiple high-visibility vials for versatile and accurate measurements.

Product Overview

Precision Measuring Tool

This I-style aluminum level is a precision measuring tool designed for ensuring surfaces are perfectly horizontal or vertical. Constructed from durable aluminum, it offers a lightweight yet robust frame for accurate readings. The level features multiple vials for horizontal, vertical, and 45-degree measurements, providing versatility for various applications.

Technical Specifications

Vial Orientations

- 45°
- 90°
- 180°

Material	Aluminum
Frame Style	I-Beam

Performance Metrics

Accuracy

1 mm/m

Measurement Accuracy
