

Idler Assembly for Construction Machinery

This heavy-duty idler assembly is designed for loaders, excavators, and bulldozers. It is manufactured with high-quality materials to ensure durability and reliability in demanding construction environments.

Product Overview

Heavy-Duty Idler Assembly

This heavy-duty idler assembly is specifically engineered for use in loaders, excavators, and bulldozers. Manufactured using high-quality materials, it is designed to withstand demanding construction environments while ensuring long-term reliability. By focusing on optimal performance and extended service life, this component helps professional operators reduce machine downtime and maintain high levels of productivity on the job site.

Technical Details

Component Type	Idler Assembly
Compatible Machinery	Loaders, Excavators, Bulldozers

Production Metrics

Annual Production Volume

30000 PCS

Units per Year

Quality Assurance

Quality Compliance
