

IEC C13 Power Connector

This IEC C13 connector is commonly used for connecting power supplies to devices such as computers, monitors, and printers. It features a three-pin configuration designed for grounded connections.

Product Overview

Professional IEC C13 Connector

The XR-501 is a high-quality IEC C13 power connector designed for reliable performance in professional electronic environments. Featuring a standard three-pin configuration, it ensures secure, grounded power delivery for devices such as computers, monitors, and printers. With broad international approvals and flexible voltage/current ratings, this connector is a versatile solution for global power cord assemblies.

Technical Specifications

Rated Current Options

- 10A
- 13A
- 15A

Rated Voltage Options

- 125V
- 250V

Model Number

XR-501

Standard

IEC60320-C13
