

IEC C20 Power Connector

This IEC C20 power connector is suitable for various electric appliances. It is designed for high-current applications and provides a secure and reliable power connection.

Overview

Professional Grade IEC C20 Connector

The IEC C20 power connector is engineered for demanding high-current applications, providing a secure and reliable connection for critical infrastructure. Designed to meet strict IEC60320-1 standards, this connector is the ideal choice for servers, power distribution units (PDUs), and large uninterruptible power supplies (UPS). Its robust construction ensures safe operation across a wide range of voltage and current requirements.

Technical Specifications

Rated Current Options

- 10
- 13
- 15
- 16
- 20

Rated Voltage Options

- 125
- 250

Standard	IEC60320-1
Model Number	XR-602B
Certifications & Approvals	UL, CUL, VDE, SAA, ASTA, ENEC

Logistics

Payment Terms

- T/T
- L/C at sight

Minimum Order Quantity	1000 pieces
Port of Loading	Shunde, Guangzhou, Shenzhen
