

IEEE 1394 Data Cable

IEEE 1394 cable designed for high-speed data connections. It allows data transfer between digital cameras, external hard drives, and computers.

Product Overview

High-Performance Data Connectivity

This high-speed IEEE 1394 cable is engineered for reliable data transfer between digital devices. It provides seamless connectivity for peripherals such as digital cameras, external hard drives, and computers. Built with durable materials, this cable ensures stable performance and maintains full compatibility with the IEEE 1394 standard.

Technical Specifications

Construction

Durable Construction • Reliable Performance

Standard	IEEE 1394
Compatible Devices	Digital Cameras, External Hard Drives, Computers
