Product Overview

High-Performance Impact Extension

This impact driver extension bar is engineered for professional use with impact wrenches and drivers, providing the necessary reach for fasteners located in deep or recessed areas. Constructed from high-strength chrome molybdenum alloy steel, it offers exceptional durability and resistance to wear under high-torque applications. The black oxide finish ensures long-lasting corrosion resistance, making it an essential tool for automotive, industrial, and construction environments.

Technical Specifications

Material	Chrome Molybdenum Steel (Alloy Steel)
Finish	Black Oxide
Drive Type	Square Drive

Key Features

Socket Retention

Secure Ball Detent

Core Benefits

- Extended reach for recessed fasteners
- High-strength construction for impact use
- Corrosion-resistant coating
- Compatible with standard square drive sockets

Applications

Target Industries	Automotive, Industrial, Construction
Compatible Tools	Impact Wrenches, Impact Drivers
