

Impact-Resistant Head Protection Helmet

This safety helmet is crafted from durable, impact-resistant materials, providing reliable defense against falling objects and hazards. It features an adjustable suspension system for a secure fit and ventilation slots for enhanced breathability during extended wear.

Product Overview

Professional Industrial Safety Protection

This high-quality safety helmet is engineered for essential head protection in rigorous work environments. Constructed from impact-resistant ABS plastic, it features a four-point suspension system and integrated ventilation to maximize both durability and wearer comfort. Designed for construction professionals and engineers, this helmet combines reliable safety standards with a secure, adjustable fit for extended daily use.

Technical Specifications

Body Material	ABS Plastic
Length	285 mm
