

Impact-Resistant Safety Goggles

These safety goggles are designed to provide optimal eye protection in various work environments. The goggles feature durable, impact-resistant polycarbonate lenses for clear visibility and protection against flying debris, dust, and splashes.

Product Overview

Professional Eye Protection

These professional-grade safety goggles are engineered for optimal eye protection in demanding work environments. Featuring a high-durability polycarbonate lens, they offer excellent resistance against impact, flying debris, dust, and liquid splashes. With a comfortable wraparound design and adjustable components, these goggles provide both safety and a customizable fit for various users.

Technical Specifications

Key Design Features

- Wraparound protective design
- Adjustable temples
- Impact-resistant lens

Lens Material	Polycarbonate
Surface Coating	Yes

Usage and Compliance

Target Applications	Construction, Manufacturing, Laboratory, General Industrial
Packaging	Hang card
