

In-Ear Monitoring Headphones

These in-ear headphones are designed for portable audio listening. The earpieces incorporate a rounded shape to secure the headphones within the ear.

Overview

Professional Audio Monitoring

These in-ear monitoring headphones are engineered to deliver reliable audio performance for professional listening environments. With a balanced frequency response ranging from 20Hz to 20KHz, they provide clear sound reproduction suitable for various audio applications. The ergonomic design ensures a secure fit, making them an excellent choice for portable audio monitoring needs.

Technical Specifications

Frequency Range	20Hz - 20KHz
Impedance	32 Ω
Maximum Power Input	60 mW
Sensitivity	91dB S.P.L. at 1KHz \pm 2%

Connectivity & Design

Plug Type	3.5mm
Cable Length	1.2 m
Design Features	In-Ear, Ergonomic, Portable

Performance Metrics

Key Performance Indicators

32 Ω Impedance	60 mW Max Power
