

Inch Size HSS Annular Cutter

High-speed steel annular cutter is designed for creating precise and clean holes. It features a robust cutting edge for efficient material removal and is compatible with standard magnetic drills.

Product Overview

High-Performance Annular Cutters

These High-Speed Steel (HSS) annular cutters are engineered for creating precise, clean, and burr-free holes in a variety of metalworking applications. Designed for compatibility with standard magnetic drills, they offer efficient material removal with minimal vibration. Their robust construction ensures extended tool life, making them an essential choice for professionals in construction, fabrication, and industrial metalworking.

Technical Specifications

Material	High-Speed Steel (HSS)
Available Cutting Depths	1 inch, 2 inch, 3 inch

Size Range

Available Diameter and Model Reference

Diameter (inch)	1" Depth	2" Depth	3" Depth
1/2	1-1100	1-1200	1-1300
9/16	1-1102	1-1202	1-1302
5/8	1-1104	1-1204	1-1304
11/16	1-1106	1-1206	1-1306
3/4	1-1108	1-1208	1-1308
13/16	1-1110	1-1210	1-1310
