

Indoor Ceiling Fan with Light

This elegant ceiling fan provides both cooling and illumination. In summer, clockwise operation produces a wind chill effect, offering a thermoelectric cooling effect.

Product Overview

Elegant Indoor Climate Control

This indoor ceiling fan combines classic aesthetics with practical climate control, featuring a polished gold finish and five wooden blades. Designed to enhance residential spaces, it provides integrated lighting through frosted glass shades. By utilizing the clockwise airflow setting, users can create a wind chill effect, allowing for significant energy savings when paired with air conditioning systems.

Energy Efficiency

Operational Cost Savings

Using this ceiling fan in conjunction with air conditioning can reduce energy consumption by 40% or more. By creating a wind chill effect, it allows for higher thermostat settings without sacrificing comfort, resulting in substantial daily and monthly electricity cost reductions.

Estimated Daily Savings Analysis

AC Power (P Number)	AC Charge/Day	Fan Charge/Day	Saving/Day
1P	7.68	0.45	2.622
2P	14.08	0.45	5.182
3P	19.84	0.45	7.486
