

Indoor Ceiling Fan with Light Kit

This indoor ceiling fan provides both air circulation and illumination. The fan operates via pull chains for light and speed control.

Product Overview

Elegant Indoor Air Circulation

This indoor ceiling fan combines functional air circulation with integrated illumination to enhance any interior space. Featuring five dark wood-tone blades and a classic bronze-colored motor housing, it offers a sophisticated aesthetic suitable for residential or commercial settings. The unit includes a three-light fixture with frosted glass shades, providing effective lighting alongside comfortable airflow.
