

Indoor Ceiling Fan with Light Kit

This ceiling fan provides air circulation and a cooling effect in the summer when rotating clockwise. It features a bronze finish, five wooden blades, and a three-light kit with decorative glass shades.

Overview

Energy-Efficient Indoor Comfort

This indoor ceiling fan combines classic aesthetics with practical energy-saving functionality. Designed to enhance air circulation, it helps reduce reliance on air conditioning systems by creating a wind chill effect, potentially lowering cooling costs significantly. With its integrated light kit, this unit serves as a dual-purpose solution for illumination and climate control in residential spaces.

Design & Features

Design Style	Bronze Finish, Wooden Blades, Decorative Glass Shades
Blade Count	5
Control Mechanism	Pull Chain

Energy Efficiency

Estimated Daily Savings

AC Size	Rated Power (W)	Daily Savings (\$)
1P	1200	2.62
2P	2200	5.18
3P	3100	7.48

Operational Benefit	Clockwise rotation creates a thermoelectric wind chill effect, reducing AC energy consumption by up to 40%.
