

Indoor Ceiling Fan with Three Blades

This electrical ceiling fan is designed for indoor use, providing efficient air circulation and cooling. It features three aerodynamically designed blades for optimal airflow and quiet operation.

Product Overview

Efficient Indoor Cooling

This indoor ceiling fan is designed to provide efficient air circulation and cooling for residential or office environments. Featuring three aerodynamically designed blades, it ensures optimal airflow while maintaining quiet operation. Built with a durable motor for long-lasting performance, the unit offers multiple speed settings to provide customized comfort for any space.

Technical Specifications

Number of Blades	3
Usage Environment	Indoor
Key Features	Aerodynamic Design, Quiet Operation, Multiple Speed Settings, Durable Motor
