

# Indoor Digital TV Antenna with Loop

This indoor antenna is designed for digital TV signal reception. It has an on/off switch and power-on indicator.

## Product Overview

### High-Performance Indoor Reception

This indoor digital TV antenna is designed to provide clear, reliable reception for Full HD and digital TV signals. Featuring a classic loop design with retractable dipoles, it offers versatile tuning for both VHF and UHF frequencies. With a built-in wide-band amplifier and gain control, users can easily optimize picture and sound quality for their specific environment.

## Key Features

### Core Features

- Full HD and digital TV signal reception
- Wide band amplifier with gain control
- Retractable dipoles for VHF and FM reception
- Swiveling large loop for UHF reception
- Power-on indicator
- Integrated ON/OFF switch

## Technical Specifications

### Output Level

**115 dBuV**

Output Level

VHF Frequency Range	47 MHz
UHF Frequency Range	470-862 MHz
Impedance	75 $\Omega$
Noise Figure	4.5 dB

## Power & Compatibility

Power Options	AC/DC Adaptor, USB
Working Voltage	DC 5V/550mA
