

Indoor Electrical Distribution Box

Wall-mounted electrical distribution box designed for indoor use. It features a durable plastic enclosure, a transparent cover, and knockouts for cable entry, suitable for residential and light commercial applications.

Overview

Professional Indoor Distribution Solution

This wall-mounted electrical distribution box is engineered for reliable performance in residential and light commercial environments. Featuring a durable plastic enclosure, it provides robust protection for internal circuitry while maintaining an accessible design. The inclusion of a transparent cover allows for quick visual inspections without the need to open the unit, enhancing both safety and maintenance efficiency.
