

Indoor Fixed Dome CCTV Camera with Zoom

This fixed dome CCTV camera is designed for indoor surveillance applications. It features a vandal-resistant housing and provides high-resolution video output with adjustable zoom and focus.

Product Overview

High-Resolution Indoor Surveillance

The TD-VC60 is a high-performance indoor fixed dome camera engineered for precision monitoring in commercial and residential settings. Utilizing a high-resolution SONY HAD CCD sensor, it delivers clear video output and excellent low-light performance. Its versatile design features an adjustable zoom lens and vandal-resistant housing, making it an ideal choice for professional security installations requiring reliable, long-term surveillance.
