

Indoor Flat Digital TV Antenna

This indoor TV antenna features integrated circuitry within a thin profile. It is designed for ease of positioning to optimize signal reception.

Product Overview

Ultra-Slim Digital TV Solution

This indoor digital TV antenna features high-tech circuitry housed within a sleek, super-thin body designed for modern living spaces. It delivers reliable Full HD and local digital TV reception across VHF and UHF frequencies, ensuring clear picture quality. The included detachable amplifier offers flexible signal boosting to meet varying reception conditions.

Technical Specifications

Performance Metrics

105 dBuV
Output Level

3.5 dB
Noise Figure

75 ©
Impedance

Frequency Range UHF: 470-608 / 698 / 790 / 862 MHz

VSWR (UHF) 2.2

Power and Installation

Powering

- AC/DC adaptor
- Digital receiver power

Operating Voltage DC 5V / 550mA

Mounting Options Wall Mount, Window Mount, Optional Base
