

Indoor Smart Socket Plug with Voice Control

This indoor smart socket enables voice control of household appliances via integration with Amazon Alexa and Google Home. Users can create schedules and timers via a free app to automatically power on or off electronics.

Product Overview

Smart Home Integration

This indoor smart socket allows for seamless control of household appliances through voice commands via Amazon Alexa and Google Home. It connects directly to your existing Wi-Fi router, eliminating the need for a separate hub or subscription. Users can easily manage their electronics remotely, set custom schedules, and create timers for automated energy management.

Technical Specifications

Technical Data

Property	Value
Type	US-CZ-10A
