Industrial Air Compressor

This compressor provides compressed air for industrial applications. It is suitable for powering pneumatic tools and machinery.

Overview

Industrial Shearing Capabilities

This industrial shearing machine is engineered for precision metal fabrication, featuring a robust construction designed for high-volume environments. It incorporates a circular work table and high-grade cutting blades to ensure clean, accurate cuts on various sheet metal gauges. Equipped with a dedicated foot pedal for hands-free operation and integrated safety mechanisms, this machine balances productivity with operator security.

Technical Specifications

Control System	Integrated control panel with foot pedal operation
Design Features	Circular Work Table, Robust Construction, Precision Blades, Hands-free Control

Safety & Compliance

Safety Features

Foot Pedal Interlock • Safety Guarding
