

Industrial Air Compressor with Horizontal Tank

This industrial air compressor features a horizontal tank, multi-cylinder pump unit, and electric motor drive. Designed for heavy-duty applications, it provides high air delivery and sustained pressure with enhanced safety features.

Product Overview

Industrial Air Compressor Performance

This high-capacity industrial air compressor is engineered for heavy-duty applications requiring sustained pressure and reliable air delivery. Featuring a robust horizontal tank configuration and a multi-cylinder pump unit, it provides consistent output for demanding professional environments. The electric motor drive ensures efficient power conversion for continuous operation.

Technical Specifications

Performance Metrics

1.6 m³/min

Air Delivery

12.5 bar

Rated Pressure

Model Identifier

ZY-1.6/12.5

Design Features

Build Characteristics

Horizontal Tank, Multi-cylinder Pump, Electric Drive, Industrial Grade
