

Industrial Air Conditioner for Cooling and Ventilation

This air conditioner is designed for efficient cooling and ventilation. It features a robust build with a large cooling surface area and is enclosed in a durable, weather-resistant casing, suitable for outdoor installation.

Product Overview

High-Efficiency Industrial Cooling Solution

This industrial air conditioner is engineered for high-performance cooling and ventilation in demanding commercial environments. Featuring a robust, weather-resistant casing, the unit is optimized for outdoor installation and long-term durability. Its design incorporates top-mounted fans and a large coil surface area to ensure maximum heat dissipation and reliable temperature control.

Technical Identification

Model Series

CRV-210 • CRV-230MLA

Design & Construction

Cooling Mechanism	Large surface area coil structure for enhanced thermal exchange
Enclosure	Durable, weather-resistant casing
Installation	Outdoor, Industrial, Commercial

Performance & Ventilation

Core Functions

- Active Cooling
- Industrial Ventilation
- Refrigerant-based Heat Exchange

Heat Dissipation System	Top-mounted high-efficiency fans
