

# Industrial Axial Fan with Wire Guard

This axial fan is designed with a protective wire guard and multiple blades for high-volume air movement. It is constructed with durable materials suitable for industrial applications, providing efficient cooling and ventilation.

## Product Overview

### Industrial Axial Fan Solution

This industrial axial fan is engineered for high-volume air movement in demanding environments. Featuring a robust design with a protective wire guard, it ensures both safety and efficiency for cooling and ventilation tasks. Its durable construction and corrosion-resistant finish make it a reliable choice for HVAC systems and heavy-duty industrial machinery.

## Technical Specifications

### Typical Applications

- HVAC Systems
- Industrial Machinery
- General Ventilation
- Cooling Systems

### Construction Details

Durable Build • Industrial Grade • Black Finish

### Design Features

Protective Wire Guard, High-Volume Airflow, Corrosion-Resistant Finish, Multi-Point Mounting
