

# Industrial Castor Wheel with Elastic Rubber Tire

This industrial castor wheel is equipped with a blue elastic rubber tire, ensuring smooth and quiet movement. It features a zinc-plated steel frame, a top plate for secure attachment, and a side brake lever for locking.

## Product Overview

### Industrial Performance

This industrial castor wheel is engineered for smooth and quiet operation in demanding environments. Featuring a high-quality blue elastic rubber tire mounted on a durable zinc-plated steel frame, it offers excellent maneuverability and longevity. The inclusion of a top plate for secure mounting and an integrated side-mounted brake lever ensures both stability and safety during use.

## Technical Specifications

Tire Material	Elastic Rubber
Frame Material	Zinc-plated Steel
Tire Color	Blue

## Features

Key Features	Quiet Operation, Smooth Rolling, Locking Brake, Top Plate Mount
Brake Mechanism	Side-mounted lever
