

Industrial Centrifugal Pump

This centrifugal pump is designed for efficient fluid transfer in industrial applications. It is suitable for chemical, pharmaceutical, and food processing industries.

Product Overview

Industrial Centrifugal Pump

This industrial centrifugal pump is engineered for high-efficiency fluid transfer across demanding sectors including chemical, pharmaceutical, and food processing. Featuring a robust stainless steel construction coupled with a reliable electric motor, it ensures durability and consistent performance. The unit is available in multiple configurations to accommodate varying flow rates and pressure requirements.

Technical Specifications

Suitable Industries

- Chemical Processing
- Pharmaceutical Manufacturing
- Food Processing

Key Features

Robust Design • Electric Motor Coupled • High Efficiency

Available Models

DZA Series, GZA Series

Material

Stainless Steel
