

Industrial Chain and Wheel Component

This is a machinery component featuring a chain and chain wheel for industrial applications. It is constructed with a robust design.

Product Overview

Industrial Chain and Wheel Assembly

This industrial component features a robust chain and wheel system designed for heavy-duty machinery applications. With a durable construction, the assembly includes a specialized black engine housing, a high-visibility gold-colored chain, and off-road capable knobby tires. Engineered for reliability, this unit is built to withstand demanding operational environments.

Technical Specifications

Color Scheme

Black • Blue • White • Gold

Component Type

Chain and Chain Wheel Assembly

Design Features

Robust Construction, Off-road Capability, Knobby Tires, High-Visibility Chain

Exhaust Configuration

Single Exhaust Pipe
