

Industrial Chisel Set

This set of chisels is designed for demolition, construction, and metalworking tasks. The chisels are compatible with standard hammer drills and demolition hammers, ensuring secure and efficient operation.

Product Overview

Professional Grade Chisel Set

This industrial-grade chisel set is engineered for high-impact demolition, construction, and metalworking tasks. Featuring durable steel construction, the set offers exceptional resistance to wear and longevity under demanding conditions. With multiple tip styles included, it provides the versatility needed for breaking concrete, shaping metal, and efficient tile removal.
