

# Industrial Cleaning Machine

This machine is designed for industrial cleaning applications. It ensures efficient and thorough cleaning processes.

## Product Overview

### Industrial Cleaning Solution

This industrial cleaning machine is engineered for high-efficiency cleaning processes in demanding environments. Designed with scalability in mind, the system supports bulk handling and precise inventory management. It is an ideal choice for operations requiring consistent, thorough cleaning performance.

## Logistics & Packaging

### Packaging Specifications

Item	Quantity	Weight (kg)
Standard Unit	800	10.3
Alternative Configuration	600	10.3

### Packaging Features

Palletized, Industrial Grade, Bulk Ready
