

Industrial Clothing Sewing Machine

This industrial sewing machine is designed for clothing manufacturing, offering a robust build for heavy-duty use. It features a high-speed motor and precision stitching for efficient and quality seams.

Overview

Industrial Sewing Solution

This industrial sewing machine is engineered for high-volume clothing manufacturing and apparel production environments. Designed with a robust build, it features a high-speed motor that ensures efficient throughput without compromising on stitch precision. With adjustable tension and stitch length capabilities, this unit is versatile enough to handle a wide variety of fabric types, making it an essential asset for tailoring businesses and garment factories.

Model Compatibility

Supported Series

- CS-5100 series
- CS-5170 series
- CS-5150 series
- CS-7500 series
- CS-5200 series
- CS-5220 series
- CS-7520 series
- CS-5850 series
- CS-5900 series
- CS-8162 series

Technical Features

Primary Application

Industrial • Clothing Manufacturing • Apparel Factory

Motor Type

AC Motor
