Product Overview

Industrial-Grade Pneumatic Coil Nailer

The CN70 is a high-performance industrial coil nailer engineered for demanding applications like pallet manufacturing, crating, and heavy-duty construction. Featuring a durable aluminum alloy die-cast body and a high-capacity PC magazine, it is designed for longevity with a tested lifespan of 500,000 working cycles. This versatile tool supports both contact and sequential firing modes, making it an ideal choice for professional buyers seeking power and reliability in hardwood fastening.

Fastener Specifications

The CN70 supports a wide range of wire-collated nails from 45mm to 70mm in length.

Compatible Nails

Attribute	Metric Range	Imperial Range
Nail Length	45mm - 70mm	1-3/4" - 2-3/4"
Nail Diameter	2.3mm - 2.9mm	0.092" - 0.113"
Nail Spacing	7.8mm - 8.0mm	0.307" - 0.315"

Technical Parameters

Dimensions	306 x 128 x 315 mm
Net Weight	3.5 kg
Operating Pressure	5-8.3 bar (70-120 psi)

Key Features

Anatomy of the CN70 including the safety mechanism, high-strength PC magazine, and adjustable nail support.

Core Features

- 360° adjustable exhaust direction
- Contact mode safety system
- Sequential mode available via trigger change
- Lightweight die-cast aluminum alloy body
- Side loading system for quick refills
- Easy length adjustment design
- High-strength PC magazine with mobile support
- Hardened high-strength nail mouth
