

Industrial Cutter Machine

This heavy-duty cutter machine is designed for industrial applications. It features a powerful engine for efficient cutting of various materials and includes safety features.

Overview

Industrial Cutter Machine

This heavy-duty cutter machine is engineered for demanding industrial applications, providing reliable performance in metal forming and shearing operations. Built with a robust frame for maximum stability, it features a powerful engine designed to cut through various materials with high efficiency. The machine prioritizes operator safety, incorporating essential features such as blade guards and emergency stop mechanisms for professional environments.

Technical Specifications

Machine Type

Industrial • Heavy-duty

Model Number

110

Safety & Features

Safety Mechanisms

- Blade guards
- Emergency stop mechanisms

Applications

Suitable Industries

Construction, Manufacturing, Metalworking

Primary Operations

Metal forming, Shearing
