

Industrial Cutting Knife

This knife circle is designed for industrial cutting applications. It features a sharp, wear-resistant cutting edge for clean and efficient cuts.

Product Overview

Industrial Cutting Solutions

This industrial cutting knife is engineered for high-performance applications in paper making machinery. Designed for precision and durability, the blade is crafted from robust materials to ensure clean, efficient cuts in demanding operational environments. It supports various configurations including point blades, dashed blades, and standard paper cutters to meet diverse industrial requirements.

Technical Specifications

Available Blade Types

- Points paper blade
- Dashed blade
- Paper cutter

Construction Quality

Industrial Grade • High Durability

Material Composition

9 CrSi, Cr12MoV, HSS, Fine Steel
