

Industrial Diesel Generator Set

This industrial diesel generator set features a robust engine coupled with an alternator, mounted on a heavy-duty base frame. Equipped with a cooling system, control panel, and safety features, it ensures reliable power generation in various applications.

Overview

Industrial Power Solutions

This industrial diesel generator set offers a versatile power range from 8KVA to 3250KVA, designed to meet demanding operational requirements. Built with high-quality international engine and alternator components, the system ensures reliability for critical power needs. The comprehensive solution includes support for full-automatic distribution, generator room environmental engineering, and ongoing maintenance services.

Performance

Power Output Range

8 KVA

Minimum Output

3250 KVA

Maximum Output

Features

Included Services & Capabilities

- Unit installation
- Full-automatic distribution
- Generator room environmental engineering
- Unit maintenance
- Spare parts supply

Core Equipment

Diesel Engine, Alternator, Low-voltage switchgear, Heavy-duty base frame, Cooling system, Control panel
