

Industrial Diesel Space Heater

This diesel space heater is designed for industrial and commercial heating needs. It features durable steel construction, a large fuel tank, and safety mechanisms for reliable use in large spaces like workshops and construction sites.

Overview

Industrial Diesel Space Heater BD-20

The BD-20 is a high-capacity diesel heater engineered for demanding industrial and commercial environments. Built with a robust steel housing, this unit is designed to provide reliable and efficient heating for large spaces such as workshops, garages, and active construction sites. It features essential safety mechanisms, including overheat protection and flameout detection, ensuring secure operation during extended use.

Key Features

Safety Features	Overheat Protection, Flameout Detection
Portability	Yes
Housing Material	Durable Steel

Technical Specifications

Model	BD-20
Fuel Type	Diesel
