

Industrial Drill Press

This industrial drill press is designed for precision drilling in various materials. It features a robust construction with a cast iron base and column for stability and reduced vibration.

Overview

Industrial-Grade Precision

This industrial drill press is engineered for high-performance drilling across metalworking and woodworking applications. Built with a robust cast iron base and column, it ensures stability and minimizes vibration during operation. The unit features a powerful 550W motor and a versatile 12-speed transmission, providing the control needed for precise, repeatable results.

Performance

Motor Specifications

550 W

Power Output

1490 RPM

Motor Speed

Speed Settings

12 Speeds (200-2500 RPM)

Max Drilling Capacity

20 mm

Dimensions & Build

Physical Dimensions

Component	Specification
Machine Height	1520 mm
Table Size	255 x 255 mm
Base Size	426 x 255 mm
Column Diameter	70 mm

Table Tilt Range

0-45° left or right

Technical Features

Included Accessories

- Safety Drill Bit Guard
- Chuck with Key
- 3-inch Vice

Electrical Requirements

230-240V, 50Hz

Key Features

Laser Guide, LED Light, NVR Switch, Digital Speed Display, Rack & Pinion Adjustment
