

Industrial Electric Arc Welding Machine

This heavy-duty electric welding machine is designed for industrial applications. It features a robust construction with a control panel for adjusting welding parameters and is equipped with wheels for portability and lifting hooks for easy transportation.

Product Overview

Industrial Welding Capability

This heavy-duty electric welding machine is engineered specifically for demanding industrial applications. Its robust construction ensures durability in rigorous manufacturing, construction, and repair environments. Designed with user control in mind, the unit features an intuitive control panel for precise parameter adjustments and is built for mobility with integrated wheels and lifting hooks.

Technical Specifications

Model Number	BX1-315
Ideal Applications	Manufacturing, Construction, Industrial Repair

Design & Mobility

Mobility Features

- Integrated wheels for floor transport
- Lifting hooks for overhead crane transport

Construction

Heavy-duty • Industrial Grade
