

Industrial Electric Fan with Adjustable Height

This industrial-grade electric fan features a robust metal cage for safety and durability. It has a powerful motor for high-volume air circulation, adjustable height for versatile placement, and a stable four-legged base for secure operation.

Product Overview

High-Performance Industrial Ventilation

This industrial-grade electric fan is engineered for demanding environments such as warehouses, workshops, and large indoor facilities. It features a robust metal cage construction ensuring both safety and long-term durability during continuous operation. With a powerful motor designed for high-volume air circulation and an adjustable height mechanism, this unit provides versatile and efficient cooling or ventilation solutions for professional workspaces.

Design & Build

Construction Features	Robust Metal Cage, Four-Legged Stable Base, Industrial-Grade
Adjustability	Yes

Performance

Ideal Applications

- Warehouses
- Workshops
- Large Indoor Spaces
