

Industrial Electric Fan with Adjustable Tilt

This electric fan is designed for industrial and commercial environments. It features a durable metal frame, safety grill, and adjustable tilt for directional airflow.

Product Overview

Industrial Performance and Design

The FGD-45 is an 18-inch industrial-grade floor fan engineered for high-performance air circulation in demanding environments. Built with a robust combination of iron and aluminum materials, it features CAD-optimized design for stable, long-term operation. With adjustable tilt angles and three-speed velocity modulation, this unit provides flexible and powerful cooling solutions for workshops, warehouses, and commercial spaces.

Technical Specifications

Compliance

CE • ROHS • GS

Fan Size	18 inch
Voltage Compatibility	220V-240V, 110V
Frequency	50Hz, 60Hz
Speed Settings	3

Dimensions and Weight

Core Metrics

5 kg

Gross Weight

4.2 kg
