

Industrial Electrical Fan

This industrial-grade electrical fan is designed for robust air circulation and ventilation. It features a heavy-duty metal frame and stand, adjustable height, and powerful motor for optimal performance.

Overview

Industrial-Grade Air Circulation

This industrial electrical fan is engineered for robust air circulation and ventilation in demanding environments. It features a heavy-duty metal frame and stand, ensuring long-term durability and stability during operation. With its powerful motor and adjustable height, it provides flexible and high-performance airflow suitable for industrial, commercial, and residential applications.

Technical Specifications

Construction Material	Heavy-duty metal
Adjustability	Adjustable Height

Application

Suitable Environments

- Industrial facilities
- Commercial spaces
- Residential areas
