Product Overview

Industrial Power Connectivity

These industrial electrical connectors are engineered for reliable power transmission and distribution in demanding environments. Designed with robust, weather-resistant construction, they ensure secure connections for machinery, electrical panels, and heavy-duty equipment. Suitable for both indoor and outdoor applications, these connectors provide the durability required for construction sites and industrial facilities.

Electrical Ratings

Rated Current Range

10 A

Min Current

125 A

Max Current

Voltage Range

110V - 440V AC

Compliance & Protection

Ingress Protection Ratings

IP44 • IP67

Certifications

SAA, CE
