

Industrial Evaporative Air Cooler with Remote Control

This industrial air cooler delivers efficient cooling through water evaporation. It features a remote control, 3-speed settings, and a high-density water curtain for enhanced performance.

Product Overview

High-capacity evaporative air cooler featuring a 42L tank and 6500m³/h airflow, suitable for industrial and commercial environments.

Industrial Evaporative Air Cooler

This industrial-grade evaporative air cooler, model LBW-6500RC, is designed to provide efficient and powerful cooling for spaces ranging from 30 to 60 square meters. Featuring a 100% copper motor and a high-density water curtain with 3-sided air inlets, it delivers reliable performance. The unit is equipped with modern conveniences including a touch screen, remote control, and a 12-hour timer, making it an ideal cooling solution for workshops, offices, and large indoor areas.
