

# Industrial Exhaust Fan with Red Blades

This high-performance electrical fan is designed for efficient air circulation and exhaust. It features a robust square frame with secure mounting points and four durable red blades optimized for maximum airflow.

## Overview

### Industrial Exhaust Fan

This high-performance electrical fan is engineered for efficient air circulation and exhaust in demanding environments. Featuring a robust square frame with secure mounting points, it ensures stable and reliable installation. The unit is equipped with four durable red blades that are precision-optimized for maximum airflow, while the central hub design promotes smooth and quiet operation.

## Design & Build

Blade Color	Red
Number of Blades	4
Frame Style	Square frame

## Applications

Suitable Environments	Industrial, Commercial, Residential
-----------------------	-------------------------------------

## Key Features

### Performance Highlights

<b>4 pcs</b> Blade Count
