

Industrial Fluid Transfer Pump

This industrial pump assembly is designed for reliable fluid transfer. It includes an electric motor coupled to a centrifugal pump, mounted on a heavy-duty base.

Overview

Industrial Fluid Transfer Pump

This robust industrial pump assembly is engineered for reliable fluid transfer in demanding environments. Featuring a high-performance electric motor coupled to a centrifugal pump, the unit is built for durability and consistent operation. The system includes a heavy-duty base for secure anchoring and flanged connections for seamless integration into existing piping infrastructure.

Technical Specifications

Pump Type	Centrifugal
Assembly Configuration	Motor-coupled centrifugal assembly
Connection Type	Flanged inlet and outlet

Design & Safety

Construction

Industrial Grade • Robust Assembly

Safety Features

Shaft Safety Guard, Heavy-Duty Base, Secure Anchoring Provisions
