

Industrial Fluid Transfer Pump

This robust pump is designed for transferring fluids in industrial processes. Its durable construction includes flanged connections for secure integration into existing piping systems.

Overview

Industrial Fluid Transfer Pump

This robustly constructed pump is engineered for demanding industrial fluid transfer applications. Featuring a durable blue finish and a horizontally mounted motor, it offers reliable performance in complex process environments. The unit is designed for seamless integration, utilizing flanged connections to ensure secure, leak-proof attachment to existing piping systems.

Technical Specifications

Mounting Configuration	Horizontal
Connection Interface	Flanged
Drive Type	Direct Coupled

Key Features

Construction Highlights	Robust Construction, Industrial Grade, Leak-Proof Design
