

Industrial Fluid Transfer Pump

This robust pump is designed for a variety of fluid transfer applications. Its durable construction and efficient motor ensure reliable operation in diverse industrial settings.

Overview

Industrial Fluid Transfer Pump

This robustly constructed pump is engineered for efficient fluid transfer across a variety of industrial applications. Featuring a durable housing, likely made of cast iron, it is designed for long-term reliability and performance. Its compact footprint ensures easy installation in diverse industrial settings, while the integrated electric motor provides consistent, dependable operation.

Construction & Design

Housing Material	Cast Iron
Design Type	Compact

Power & Operation

Power Source	Electric Motor
Application Suitability	Industrial Fluid Transfer, General Purpose
