

Industrial Fluid Transfer Pump

This industrial pump is designed for heavy-duty fluid transfer. It features a volute casing, connection points for fluid intake/output, and an electric motor, all mounted on a sturdy baseplate.

Overview

Industrial Fluid Transfer Pump

This robust industrial pump is engineered for heavy-duty fluid transfer operations. Featuring a centrifugal design coupled with a high-performance electric motor, the unit is mounted on a sturdy baseplate to ensure stability and operational longevity. Its enclosed motor design makes it suitable for demanding industrial environments requiring reliable and consistent fluid movement.

Technical Specifications

Application Suitability

Industrial • Heavy-Duty

Pump Type	Centrifugal
Construction	Baseplate Mounted, Enclosed Motor, Volute Casing
Color Scheme	Blue
