

Industrial Heat Gun

This industrial heat gun is designed for various applications requiring directed hot air. It features a robust housing, ergonomic handle, and adjustable temperature settings.

Product Overview

Industrial Heat Gun

This industrial heat gun is engineered for professional applications requiring precise, directed hot air. It features a robust blue housing built for durability in demanding environments and an ergonomic handle designed for operator comfort during extended use. With adjustable temperature settings, it provides the versatility needed for tasks ranging from shrinking tubing to paint removal.

Design & Build

Housing Color	Blue
Ergonomics	Yes

Performance

Temperature Control	Adjustable
---------------------	------------

Applications

Typical Applications

- Shrinking tubing
- Paint removal
- General heat-related tasks

Power & Connectivity

Power Source	Standard Electrical Outlet
