

Industrial Heavy-Duty Sewing Machine

This industrial sewing machine is designed for heavy-duty textile applications. It features adjustable stitch length and width settings, as well as a reverse stitching function and a high-speed motor for efficient stitching.

Product Overview

Industrial Heavy-Duty Sewing Machine

This high-performance industrial sewing machine is engineered for demanding textile applications requiring durability and consistent power. Its robust construction ensures stability during high-speed operation, making it a reliable choice for garment factories and upholstery workshops. With versatile stitch adjustments, it handles heavy materials like denim, canvas, and leather with ease.
